

Ege University Hospital in Izmir, Turkey
Agnė Jakubauskaitė, graduate of Health Care Faculty

Erasmus+ internship program at Ege university hospital was a truly good experience to me and I am very thankful to my university that I had this opportunity. The main reason of selecting Ege university hospital was that laboratories there are very smart, new, and modern. Workers are qualified, they helped a lot, explained everything, showed every piece of laboratory. I had an opportunity to try to do some tests by myself, see routine works and workers trusted me, it was an amazing experience.

Talking about Erasmus life it was also a great experience. So many people coming from different countries and you can learn their traditions, language, culture. Also, you can make friends around the world. Izmir is the best city for students. This city “never sleeps”, so you can find some activities easy. Weather is so perfect in Izmir so you just can grab some snacks, invite your friends and sit in the park or somewhere by the sea and it would be an amazing day.

I will conclude by stating that this was undoubtedly a unique and life changing experience for me. Every moment was full of learning and fun. I consider myself a part of Erasmus and am happy having had this kind of opportunity. I highly recommend Ege university hospital as one of the best places to go for an exchange internship program.
