

Research (Art) Centre	Fields of Science (Art)	Priority Areas of Scientific Research (Art Activities)
TechSpace	Electrical and Electronic Engineering	Manufacturing Technology and Artificial Intelligence
	Computer Science Engineering	Robotics
		Cybersecurity and Security Innovation
		Digital Technologies
	Informatics	Big Data
		Artificial Intelligence
		Digital Technologies
	Material Engineering	New Production Processes, Materials and Technologies
	Environmental engineering	Waste Management and the Circular Economy
		Soil Protection and Regeneration
		Engineering environmental monitoring systems
		Sustainable urban Infrastructure
	Civil Engineering	Ecosystem Restoration and Biodiversity
		Sustainable Construction
		Modernisation of Buildings
	Mechanical Engineering	Digital Modelling of Buildings
New Manufacturing Processes, Materials and Technologies. Advanced Structures		
Transportation engineering	New Manufacturing Processes, Materials and Technologies. Advanced Structures.	
	Smart, Clean, Connected and Sustainable Transport	
Measurement Engineering	New Manufacturing Processes, Materials and Technologies. Advanced Structures	
	Diagnosing the Condition of Various Mechanical Systems
